

## **LINKS WITH THE COMMUNITY**

The school and the girls have much to gain from and contribute to the community, both the local community and the worldwide community.

In recent years we have:

- Raised the profile of the School, creating a stronger image by re-branding St Margaret's with a new colour way, redesigned uniform, letterhead and promotional literature
- Enhanced our name in the wider community by launching a new more modern website and expanding our range of publicity material to include a dvd
- Established strong links and shared opportunities with other local schools, both independent and maintained
- Maintained contacts with schools across Europe through participation in the Comenius Project
- Worked with local organisations in events such as the Bushey Festival
- Hosted local organisations and events such as sports groups and music competitions
- Supported local, national and international charities
- Offered training to teachers from primary schools through the Food Partnership sponsored by the DCFS

In the next three years we will:

- Promote the school as a venue for local events
- Continue to participate in local events and interact with local organisations
- Strengthen links with other local schools
- Continue to support a wide range of charitable causes
- Increase girls' understanding of the worldwide community by widening the range of nationalities represented here
