

PARENTAL INVOLVEMENT

The fulfilment of the School's aims can only be achieved through an active partnership between School and Parents.

In recent years we have:

- Re-established a parents' association known as "Connections"
- Through Connections held 5 very successful social events
- Held a Head's Forum each term to facilitate an open, two-way dialogue
- Sent regular newsletter by hard copy and by e-mail to keep parents informed about recent and future events
- Established a parents' section on the website where parents can access key information and download letters

In the next three years we will:

- Encourage more parents to be actively involved in Connections
- Continue to work with Connections on projects of value to the school
- Advertise school events more vigorously
- Continue to welcome parental involvement in the school community
